REPORT RENDERING WITH PEN & INK FOR 2ND YEAR STUDENTS

Date: 08-09-2018 to 13-09-2018

Organized by: PDEA'S College of Architecture.

Co ordinator: Ar. Aniket Shendge

Co coordinator: Ar. Swati Rode

Student Attended: 2nd year B.Arch. (23 Students)

Aim: To encourage students to learn rendering techniques for presentation of drawings.

Brief: The workshop was under taken by Ar. Aniket Shendge which covered various aspects of rendering techniques. The pointers covered were: -

Art is a medium to express the human emotion. While art has so many mediums to express itself. It could be colors, crayons, pencils, watercolor or pen pencil and ink. Every medium has its charm to make piece of art. When art and architecture merge together it produces another work of art. Giving thought to this aspect, PDEA's COA scheduled a hands on workshop of "Rendering with Pen and Ink". To go in depth, it was a 5 days' intense workshop from 8 September 2018 to 13 September 2018. Expert was Prof. Aniket Shedge. Being an architect Prof. Shedge has keen interest in water color and ink. Students of architecture got to know about the skill that was going to enhance their project and presentation skill.

Schedule for the workshop was

Day 1- introduction of Expert followed by introduction to the material needed by the rendering. Prof. Aniket inform the students about the details. Details play an important role in rendering. He is a strong believer of "God is in the Details." He inform the students about the different types of inks and pens. Different kinds of inks used in ancient painting.

Paper used for the rendering also plays a crucial role. Expert gave demonstration and asked students to try that on next day.

DAY 2 was all about hands on experience. Students try their luck to be as close to perfect with expert. They have to work with Charcoal Pencil.

DAY 3 Students have to practice on water color. They find it easy because only the colour and water has to be used. It was a fast rendering technique.

Day 4 was to learn about Pen and Ink. Since pen and ink was permanent medium students had to put meticulous attention to details.

Day 5 The last day was dedicated to alcohol marker rendering. Another fast rendering medium. The second half was to showcase the projects.

Workshop of Rendering with pen and ink and colors finds application in various architectural contexts:

1. Design presentations: Architectural renderings using this technique are often used in design presentations to convey the intended atmosphere, materials, and spatial qualities.
2. Marketing and promotion: Colorful and visually appealing renderings can be used for marketing purposes, such as brochures, websites, or exhibitions, to attract clients and stakeholders.
3. Historical documentation: Pen and ink renderings are commonly employed in documenting historic architecture, capturing the character and details of significant buildings.
